---

## PROFESSIONAL EXPERIENCE

**Movenpick Hotel**  
**IT Agent**

**May 2023 - Present**

- Troubleshooted hardware or software issues.
- Resolved guest issues regarding internet issues.
- Attended to all employee queries, emails and calls resolving any problem promptly and accurately.
- Created a script that connects to the database of a security software and disables guest pool access cards each day at 12 am.
- Created a local web app that gets data from the db of a security software, applies simple and advanced filters to it for the purpose of printing an accurate daily report.

## PROJECTS EXPERIENCE

**NOVAGRAM**

**Jan 2023 - Mar 2023**

**Technologies used: React, Flask, SQLAlchemy**

Novagram is a social media web app, a clone of one of the most famous apps INSTAGRAM.

- Used a RESTful api (Imgur) for posting images.
- Caching used with React query to improve app performance.
- Implemented a web and mobile responsive design
- Created reusable components for more efficiency.

**Book store**

**Nov 2022 - Dec 2022**

**Technologies used: Django, Vanilla Js , Sqlite**

Book store is an e-commerce book store webapp where users can either buy or sell books.

- Created a Library for users to read their favourite books online.
- Implemented cart, wish list and purchase history pages.
- Implemented a dashboard for authors to track their book sale info and ratings.
- Sqlite database used to store books, users and transactions info.

---
